

# Kaleen family dental surgery NEWS

A quarterly newsletter to keep you informed.

## Greetings!

Welcome to the Spring issue of *Kaleen Family Dental Surgery's* newsletter! We know how important it is to connect with our valued patients. That is why, we've started this communication tool to update you with what's the latest in dentistry and inform you of what our dental clinic can do for you. From now on, make it a habit to check your mailbox quarterly to receive the good news from your friendly family dental surgery.

## Treatment for Sleep Apnea

Did you know that you could get serious health problems when you don't have a good night's sleep? Aside from experiencing tiredness, you can have cardiovascular disease, increased blood pressure and an overall decline in general well being. There are a number of sleeping problems and one of them is loud or excessive snoring. **Kaleen Family Dental Surgery's** can help you get back that restful and deep sleep. By using the **Epworth Sleepiness Scale**, we can evaluate your condition and give you the proper treatment you've always needed. Call us now and our professional sleep apnea dentist, **Dr. Henny Purba**, will take care of you. For more info about the Epworth Sleepiness Scale, please visit this link: [www.epworthsleepinessscale.com](http://www.epworthsleepinessscale.com).

Having some trouble sleeping? You might be experiencing Obstructive Sleep Apnea (OSA).

## Spring Whitening Special

Brighten your teeth and have that confident smile with a home whitening kit for only **\$300**. That's a huge saving of \$150! Promo runs from the 1st of September to the 30th of November 2014. So hurry and call (02)62415941 now!

## Myobrace - Early Orthodontics

Is your child, 5 to 15 years of age suffering from poor oral habits and crooked teeth? **Kaleen Family Dental Surgery** can straighten your child's teeth the safe and natural way. The **Myobrace System** is a no-braces approach to straighten your child's teeth and jaws. This is done by using a series of removable dental appliances worn for 1 to 2 hours a day and while sleeping. The best age to do an orthodontic assessment is between 6 to 7 years old. Talk to **Dr. Henny Purba** now for early assessment and treatment and to know more about this amazing dental technology.

**Straighter Teeth and Healthier Smile for Kids through Myobrace.**

## Medicare Child Dental Benefit Scheme

Your child aged 2 to 17 years old may take advantage of Medicare's Child Dental Benefit Scheme. If your family is receiving Family Tax Benefit A, your child may be eligible for up to \$1,000 of general dental treatments. Visit the Department of Human Services' website at [www.humanservices.gov.au/customer/services/medicare/child-dental-benefits-schedule](http://www.humanservices.gov.au/customer/services/medicare/child-dental-benefits-schedule) or call us now to book an appointment.

### Child Dental Benefit Scheme

Accepted at Kaleen Family  
Dental Surgery

*They say, an apple a day keeps the doctor away. The same goes with oral health. Proper oral hygiene, early detection and prevention of dental woes such as tooth decays and gum disease is better than treating it later. Prolonging the treatment of your dental problems is not only troublesome but also costly. So don't delay! Call **Kaleen Family Dental Surgery** at (02) **62415941** and book your appointment today. If you are experiencing extreme dental pain and discomfort and can't take it anymore, call us! We accept emergency appointments.*
